Reference Advertising

ONE year is the life of a City Directory. Every day in that year thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

KENNEDY'S
THE
LIVE STORE

The Reason WHY Kennedy's is such a Great Success

THE reason is no secret. Reduced to plain words it amounts to this: We treat every customer as we would like to be treated if we were doing the buying. This is the corner-stone of Kennedy's policy. Then, of course, we have the great advantages derived from buying for eight stores in tremendous quantities at the lowest cash prices, which enables us to sell at prices much lower than the merchant with but a single store, charging accounts, making a slow turn-over. Our remarkable success in Springfield—excelling our highest anticipations—is the result of doing business Kennedy's way.

KUPPENHEIMER CLOTHES

We feature this brand of clothes because it offers the utmost in style, fabric and tailoring. You are sure of service and satisfaction—a heaped-up and running-over measure of value at each and every price.

Three years of remarkable success. The Kennedy Policy Volume of business excelling expectations. Rapid development. Clerks who are courteous.

A store that is behind your every want pertaining to clothes for the young and old.

Four Generations of Superior Construction Service

ESTABLISHED 1839
FLYNT
INCORPORATED 1885

ESTABLISHED in 1839, the FLYNT Building Organization has maintained an unbroken record of Superior Service to its clients:

The FLYNT Building Organization was the pioneer in Standard Mill Construction, and with the advent of Reinforced Concrete experts in that field were added to the staff and the FLYNT Organization has maintained its position as the Premier Industrial Building Organization.

FLYNT Built Industrial Buildings may be seen throughout the Eastern and Southern States, and each is a standing testimonial to the high standard of materials and workmanship maintained by the organization.

Our interesting and valuable booklets about Factory Buildings and Industrial Housing will be sent upon request.

Superfluous Hair Removed by Electrolysis

OVER two score years ago, Dr. Mitchel, oculist, of St. Louis, evolved a method of using electricity for the permanent removal of ingrowing eyelashes. Soon after, his friend, Dr. Hardaway, conceived the idea of using this method for the removal of Superfluous Hair from the human face. Today, physicians, everywhere, recommend this method as the only sure way of obtaining permanent relief from this annoying condition.

For nearly thirty years this office has employed *this* method—*the* method discovered by one, and employed by *ALL* the old masters, the single electric needle process, in painlessly disposing of these disquieting blemishes *for all time.*

You are invited to phone, write or call for complete information and demonstration sitting without obligation.

What a Massachusetts Mutual Policy Will Do for You and Your Family

IT WILL

—assure your wife a monthly income for life if you are taken away

—make your future years comfortable and happy ones if you live to old age

—provide an income if you are permanently and totally disabled

—furnish a fund to give your children the education you are planning for them

—establish your business credit upon a surer foundation

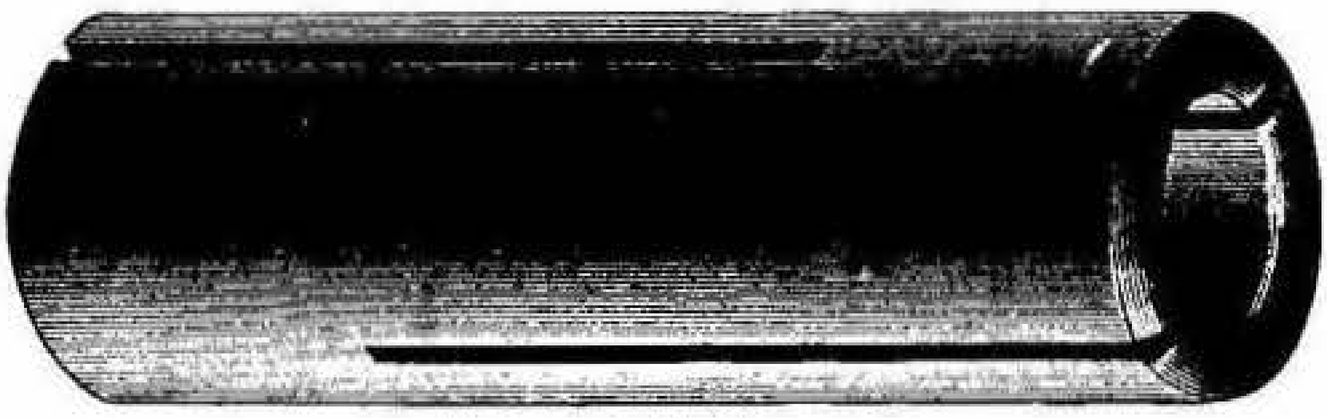
THE STRONGEST LITTLE THING IN THE WORLD



Patented April 15, 1902

Holds Two Tons—Weight 5 Ounces
(Official U. S. Government Test)

LITTLE GIANT

EXPANSION SCREW SLEEVES

You Should Use Them

Why? They are Unbreakable and Rust Proof. Because they HOLD Better than Any Other Kind. They are Quickest to Install. They Start to Expand at the First Turn of the Screw. They are made of Pure Lead and the Screw Cuts Its Own Thread. They Expand Evenly Their ENTIRE LENGTH. No Sleeve or Wedge Nut is Required.
When? To Fasten Iron Work, Steam or Gas Fittings, Etc., to Brick Work or Concrete. To Set Marble or Slate and Securing the Woodwork to Them. To Put Up Awnings or Hanging Signs.
Where? Dampness would Rust Out Cast Iron Shields. LITTLE GIANTS will not Rust or Corrode. In Marble Work, LITTLE GIANTS will not Crack and are the Smallest Sleeves Made.

"Napier" Metal Cutting Machine

for fast efficient cutting-off

The continuous cutting action of the band saw enables this machine to cut more than twice as fast as a heavy duty hack saw machine.

If you are using a cold saw for cutting off short lengths, the "Napier" with its narrow kerf of only .049 will show a saving in bar stock required, ranging from three to thirty per cent. Ten per cent is probably a conservative average.

NATIONAL Calling System

"Instant Man Finder"

THE National Calling System is a signaling system. Prearranged code numbers are sounded on a series of electric signals, which may be gongs, horns, buzzers or other electrical devices. When a signal is sounded it is heard instantly and simultaneously in every part of every department. The man wanted gets his call immediately, regardless of where he may be at the moment. He then reports back over the nearest telephone or in person. No one's time is wasted on a "man hunt"—no one is disturbed.

MULTI-UNIT SECTIONAL STEEL SHELVING

"MULTI-UNIT" is the economical shelving for heavy-duty service and rough usage in stock or storerooms. It is built of extra heavy sheet steel. Uprights and shelves have tubular edges, which add to its rigidity, strength and fine appearance. In the finished enamels "Multi-Unit" harmonizes with the best office furnishings and looks well in the home.

"Multi-Unit" Shelving is strictly unitary. It goes up or can be taken down in a jiffy. All parts solidly interlock. All parts are interchangeable. It is furnished in Plain Shelves or Bin Compartments; with or without backs, in plain steel, or in handsome enamel finishes.

BUY OIL LEASES

Don't waste any more time or money on doubtful oil stocks, that are pushed out by unknown or unreliable promoters. Deal with local brokers—it is safer.

We propose to specialize in Oil Leases, and also organize local oil companies to operate in proven shallow oil pools.

Allow us to represent you, or to furnish further details regarding the purchase or sale of Oil Leases, Royalties or Production—in any oil field, in any county, in the country.

Advertisers and Printers

There are uses for bond papers that may not have occurred to you. No advertising man should fail to get the good out of "The Letter", "The Illustrated Letterhead" and "The Halftone Letterhead Book."

The printer who is interested in bond papers which give him maximum speed, close register, and lie flat on the feedboard are already acquainted with Certificate Bond, Tokio Bond, Economic Ledger, and the Index Bristols made by the Crocker-McElwain Company.

If you print, or if you advertise, send for any or all of the books named above.

CROCKER-McELWAIN COMPANY

Service in Paper

The Chemical Paper Manufacturing Co. covers the fine-paper field as well as the coarse-paper field. As an example of fine-paper skill, International Covers and Interwoven Covers are offered to printers and advertisers, the former a very inexpensive but rich-looking cover paper, and the latter a beautiful and serviceable grade of cover paper selling at a moderate price.

In the coarse-paper field, the Chemical Paper Manufacturing Co. is prepared to give service on special making orders of any size. Have you heard of the folding box-board service being given by this Company ?

Send for one of their "Chemco Folding Boxboard Kits" and see a line of patent-coated folding boxboards that is taking the place of a great deal of clay-coated.

- Folding
- Stamping
- Photo-Engraving
- Binding
- Sealing
- Electrotyping
- Multigraphing
- Mailing

In addition to issuing publications with an aggregate monthly circulation of 1,500,000, we write, design, illustrate, electrotype, print, fold, stitch and bind all printed matter required for our own business, and produce monthly millions of pieces of book and job printing from an ordinary business card to the most elaborate de luxe editions.

In our Multigraph department we reproduce mechanically our personally dictated promotion letters, with fac-simile of the writer's signature in writing ink, at a saving—even in small quantities—of 87 per cent over individual typewriten letters.

By our mailing service the addresses are filled in, the envelopes addressed, letters folded and enclosed, sealed, stamped and mailed at a minimum of cost.

All this is the work of a complete organization created by 40 years of practical experience, which has built up the success of our own immense business and saved us many thousands of dollars.

We do all this for ourselves—*we can do it for you.* This is "Phelps Service."

DESCRIPTION

OF THE

ATTRACTIONS, ADVANTAGES, AND RESOURCES OF

SPRINGFIELD, MASSACHUSETTS

FURNISHED BY THE

SPRINGFIELD CHAMBER OF COMMERCE, MASSACHUSETTS

Springfield is the center of a spider's web, with many lines of railroads leading to it. The city is 99 miles from Boston, 136 from New York City, and 103 from Albany, with many prosperous towns and cities lying in between. Many of the people living in these towns and cities patronize Springfield stores so that Springfield, with a population of 135,000 (estimated), is the trading center for 600,000. Railroads, trolleys, and good highways bring the trade to the city, and the stores and shops are always busy and prosperous.

SPRINGFIELD—THE CITY OF SERVICE

Springfield is the natural center of distribution for New England. It has been compared a great many times to Western cities in its being a live wire, and because of the energy and activity of its wide-awake citizens. One of the finest examples of their loyalty to the city is the Municipal Group, which stands as a testimony to the generosity and civic pride of the citizens.

SPRINGFIELD IS FAMOUS

Springfield is famous as the home of the Springfield Armory, with its great history, both past and present. The Springfield Rifle is known throughout the world. Likewise Springfield has other world-wide known industries, such as the G. & C. Merriam Company, publishers of Webster's Dictionary; Barney & Berry, Inc., manufacturers of the Barney & Berry skates; National Equipment Company, candy machine manufacturers; East Springfield branch of the Westinghouse Electric and Manufacturing Company, fractional horse-power motors; Hendee Manufacturing Company, Indian Motocycle manufacturers; Wason Manufacturing Company, steam and electric cars; Kibbe Bros., confectionery manufacturers; Milton Bradley Company, kindergarten supplies and games; W. H. Miner Chocolate Company, manufacturers of sweet chocolate; Smith & Wesson, manufacturers of revolvers; and Rolls-Royce of America (a branch of the noted English firm) manufacturers of automobiles, a recent addition to Springfield's industries. Springfield is the home of skilled mechanics.

BEAUTY AND ATTRACTIONS OF THE CITY

Springfield is known as "The City of Homes," and rightly can claim this title from many other cities described in the same way, for the beautiful parks (822.07 acres) and boulevards in the city, with the stately homes under great trees, are indeed charming. Forest Park, given to the city through the munificence of E. H. Barney and many other generous citizens, with an area of 729.14 acres, is one of the finest public parks in the country. The drives in and around Springfield are many and beautiful.

THE HISTORY OF SPRINGFIELD

William Pynchon and a band of brave followers founded Springfield in 1636, and on May 14 the town was organized. The early days involved many vicissitudes with the Indians, picturesque incidents, and affairs of marked bravery. In 1647 a large addition was made to the territory of Springfield by the General Court so that the city included Westfield, Suffield, some of Southwick, West Springfield, Holyoke, Agawam, Chicopee, Enfield, Wilbraham, Somers, Ludlow, Longmeadow, and Hampden, but since then these have become independent cities and towns, although all were originally a part of Springfield.

In 1672 the village of Springfield was burned by Indians, but, Phoenix-like, arose.

In 1812 the southern part of Old Hampshire County was named Hampden and Springfield became a shire town. A Court House was erected in the town in 1821. On May 25, 1852, Springfield, with a population of 12,500, was incorporated as a city, and on May 25, 1886, the city celebrated its 250th anniversary; on May 25, 1911, in a delightful manner the 275th anniversary was likewise celebrated. The spirit of ancient and modern Springfield is embodied in the world-famous statue of Deacon Samuel Chapin, by Augustus Saint-Gaudens, which stands at the corner of Chestnut and State streets.

AS AN EDUCATIONAL CENTER

Springfield is noted as second to none in the excellence of its public schools. With three High Schools, a Vocational School, a large number of grade and private schools, also parochial schools, it maintains a high standard. There are 41 public schools in the city, including three High Schools and a Vocational School. The International Y. M. C. A. College and the American International College are also located in this city.

Like all New England cities it has many churches—65 churches and religious societies—and many noteworthy ones among them.

Springfield is the home of the Hampden County Improvement League, which was organized in 1913 by a committee of the Springfield Chamber of Commerce for the purpose of creating a better understanding between the business man and the farmer.

It is also the home of the Eastern States Agricultural and Industrial Exposition (another outgrowth of the Chamber of Commerce activities, organized in 1916) which organization has already gained a country-wide reputation. The attendance at the exposition of 1919 was 185,000.

BUILDINGS OF NOTE

Notable buildings in Springfield are: The Municipal Group; the Public Library; Springfield Art Museum; Museum of Natural History; Springfield State Armory; Massachusetts Mutual Life Insurance Company building; Springfield Fire and Marine Insurance Company building; Hall of Records; Union Trust Company building; the Third National Bank building; the new building of the Chapin National Bank and the Hampden Savings Bank; the Y. M. C. A. building; the three High School buildings; Stearns building; Hotel Kimball; the Bridgway Hotel, and the Myrick Building (the headquarters of the Springfield Chamber of Commerce).

SOCIAL ADVANTAGES

The social advantages are many, and the club life is indeed delightful. There are various charities in this city which are very active. The Y. M. C. A. and the Y. W. C. A. occupy their own buildings; the Boys' Club, an institution offering social recreation to over 1,000 boys, is splendid for youthful exuberance; the Girls' Club, doing excellent work for the girls; the Women's Club; the Nayasset Club, which is one of the leading men's clubs of New England; the Colony Club, which is located in the million dollar residence of the late D. B. Wesson; the Winthrop Club, and the Country Club, of Springfield, all housed in their own buildings; besides the Springfield Business Women's Club, the Rotary Club, Kiwanis Club, Publicity Club, and many other Clubs, literary and social, make the city a pleasant place in which to live as well as to work.

The proposed Americanization Council will co-ordinate the activities and be representative of the thirty units of Americanization service in the city, so that adequate co-operation may be rendered the City Government and its branches of service in this very important problem.

NEWSPAPERS AND OTHER PUBLICATIONS

The principal newspapers of Springfield are the *Springfield Republican,* with an international reputation; the *Springfield Union,* which is doing much towards the upbuilding of Springfield and western New England; and the *Springfield Daily News.* All of these papers are of a high grade, and the city is fortunate indeed in having them published here.

TRANSPORTATION FACILITIES

The transportation facilities of Springfield are excellent. Over two hundred trains a day enter and leave the city on the three lines of railroads which enter here, New York, New Haven and Hartford, Boston and Albany, and the Boston and Maine.

SPRINGFIELD CHAMBER OF COMMERCE

The Springfield Chamber of Commerce ranks with the principal commercial organizations in the United States. It has a national reputation. It has 2,000 members, all of whom are of the city's leading citizens. The executive staff is composed of a General Secretary and four associate general secretaries and a clerical staff of ten persons. In its 38 committee activities are a well organized Convention Bureau, Credit Reporting Bureau, Industrial Department and an active Retail Merchants' Association. It is located in the Myrick Building, where quarters are maintained on one third of the main floor and where a permanent exhibition of a number of Springfield's manufacturing industries may be seen. Address all inquiries for information to

CLIFTON D. JACKSON,
General Secretary.

The City Directory

Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

Reference Advertising

ONE year is the life of a City Directory. Every day in that year thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

SPRINGFIELD STREET DIRECTORY

The Street Directory gives the location of each street, and shows what other streets, avenues, or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 306, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

Uncle Sam has 69,000 Salesmen engaged to represent you at 2c a call

If your business requires relations with more people than you can meet and talk with personally—you have a definite need for the service we offer

Facsimile Typewritten Letters

When properly executed have a certain business-getting force just as useful to the one-man store as to the million-dollar-a-year Mail Order firm

Just what Uncle Sam and our service can do to increase your business is best indicated by what we are doing for others

Live Mailing Lists

We prepare mailing lists of prospects that are *alive.* Compiled to fill the need you have for a list, every name is one with whom you ought to do business

If you're interested in going further—write or let our representative call on you. You will incur no obligation by doing either
